Sri Lanka genius in hydraulic engineering and architecture. Kandy is the second-largest urban area and also the capital of the last native kingdom of Sri Lanka. The British colonial culture has also influenced the locals. It shares a maritime border with the Maldives in the southwest, India in the northwest, Andaman and The Nicobar Islands in the northwest, and Myanmar through the Bay of Bengal. It lies in the Indian Ocean, southwest of the Bay of Bengal, separated from the Indian peninsula by the Gulf of Mannar and the Palk Strait. The most spoken language Sinhala,. Sri Jayawardenepura Kotte is the legislative capital of Sri Lanka, while the largest city, Colombo, is the administrative and judicial capital which is the nation's political, financial and cultural centre. The

rich cultural traditions shared by all Sri Lanka, officially the Democratic Socialist Republic of Sri Lanka, also known historically as Ceylon, is an island country in South Asia

Science and technology in the Philippines It absorbed the UP Industrial Research Service Center, the National Hydraulic Research Center, the Training Science and technology in the Philippines describes scientific and technological progress made by the Philippines and analyses related policy issues. There are also sectoral councils for Forestry, Agriculture and Aquaculture, the Metal Industry, Nuclear Research, Food and Nutrition, Health, Meteorology, Volcanology and Seismology. of the Philippines College of Engineering. The main agency responsible for managing science and technology (S&T) is the Department of Science and Technology (DOST)

Among the men and women who have made contributions to science are Fe del Mundo in the field of pediatrics, Eduardo Quisumbing in plant taxonomy, Gavino Trono in tropical

marine phycology and Maria Orosa in the field of food technology. d5759a02fe

Solar power in India "Why India's Solar Power Tariffs Reached an Historic Low: New Record of Rs2 Per kWh" (PDF). In order to decrease carbon dioxide emissions, reduce reliance on fossil fuels, with coal being the primary source of electricity for the nation at present, bolster employment, economy and make India energy independent by making self-reliant on renewable energy, the Ministry of New and Renewable Energy was formed in 1982 to look after the country's activities to promote these goals. Since the early 2000s, India has increased its solar power significantly with the help of various government initiatives and rapid awareness about the importance of renewable energy and sustainability in the society. These collaborative efforts, along

with global cooperation with the help of International Solar. Jyoti Gulia; Vibhuti Garg (December 2020). Institute for Solar power in India is an essential source of renewable energy and electricity generation in India d5759a02fe
