Language planning Along with language ideology and

language practices, language planning is part of language policy – a typology drawn from Bernard Spolsky's theory of language policy. Cooper (1989) defines language planning as "the activity of preparing a normative orthography, grammar, and dictionary for the guidance of writers and speakers in a non-homogeneous speech community" (p. language ideology and language practices, language planning is part of language policy – a typology drawn from Bernard Spolsky's theory of language policy In sociolinguistics, language planning (also known as language engineering) is a deliberate effort to influence the function, structure or acquisition of languages or language varieties within a speech community. Language management is defined as "the explicit and observable effort by someone or some group that has or claims authority. According to Spolsky, language management is a more precise term than language planning. Robert L. 8) 8a18424f84

Since the late 19th century, it has served as the lingua franca of the entire Yangtze River Delta region, but in recent decades its status has declined relative to Mandarin, which most Shanghainese speakers can also speak. 8a18424f84

List of language regulators dictionaries;. There may also be multiple language academies attempting to regulate and codify the same language, sometimes based in. Language academies are motivated by, or closely associated with, linguistic purism and prestige, and typically publish prescriptive dictionaries, which purport to officiate and prescribe the meaning of words and pronunciations. A language regulator may also have a more descriptive approach, however, while maintaining and promoting (but not imposing) a standard spelling.
