Its foundation in Monaco during January 1959 makes it one of the world's oldest underwater diving organisations. Agreement with the Professional Association of Diving Instructors (PADI) was signed on 30 January Confédération Mondiale des Activités Subaquatiques (CMAS; known in English as the World Underwater Federation) is an international federation that represents underwater activities in underwater sport and underwater sciences, and oversees an international system of recreational snorkel and scuba diver training and recognition

Emergency medical responder EMRs have the knowledge and skills necessary to provide immediate lifesaving interventions while awaiting additional emergency Emergency medical responders (EMRs) are people who are specially trained to provide out-of-hospital care in medical emergencies, typically before the arrival of an ambulance. Specifically used, an emergency medical responder is an EMS certification level used to describe a level of EMS provider below that of an emergency medical technician and paramedic. wide range of specialties. However, the EMR is not intended to replace the roles of such providers and their wide range of specialties

Drowning Submersion injury refers to both drowning and near-miss incidents. Retrieved 6 September 2022. After successful resuscitation, drowning victims may experience breathing problems, confusion, or unconsciousness. Archived from the original - Drowning is a type of suffocation induced by the submersion of the mouth and nose in a liquid. Most instances of fatal drowning occur alone or in situations where others present are either unaware of the victim's situation or unable to offer assistance. ["USLA's Top Ten Beach and Water Safety Tips United States Lifesaving Association"](#); 3 July 2021. Occasionally, victims may not begin experiencing these symptoms until several hours after they are rescued. An incident of drowning can also cause further complications for victims due to low body temperature, aspiration, or acute respiratory distress syndrome (respiratory failure from lung inflammation)

Solo diving Surface supplied diving and atmospheric suit diving are commonly single diver underwater activities but are accompanied by an

on-surface support team dedicated to the safety of the diver, including a stand-by diver, and are not considered solo diving in this sense. National Association of Underwater Instructors (NAUI), Professional Association of Diving Instructors (PADI), and British Sub-Aqua Club (BSAC), the practise Solo diving is the practice of self-sufficient underwater diving without a "dive buddy", particularly with reference to scuba diving, but the term is also applied to freediving. Professionally, solo diving has always been an option which depends on operational requirements and risk assessment a2eb6d166a

International Life Saving Federation organisations/federations aiming at improving water safety, drowning prevention, water rescue, lifesaving and lifeguarding and lifesaving sport. The supreme authority The International Life Saving Federation (ILS) is an organisation for drowning prevention, water safety, lifesaving and lifesaving sports a2eb6d166a

Buddy diving It is a set of safety procedures intended to improve the chances of avoiding or surviving accidents in or under water by having Buddy diving is the use of the buddy system by scuba divers and freedivers. When using the buddy system, members of the group dive together and co-operate with each other, so that they can help or rescue each other in the event of an emergency. It is a set of safety procedures intended to improve the chances of avoiding or surviving accidents in or under water by having divers dive in a group of two or sometimes three. This is most effective if both divers are competent in all relevant skills and sufficiently aware of the situation that they can respond in time, which is a matter of both attitude and competence. divers and freedivers a2eb6d166a

Outline of underwater diving Underwater Instructors (NAUI) – Non-profit training and certification agency association of scuba instructors Professional Association of Diving Instructors (PADI) – The following outline is provided as an overview of and topical guide to underwater diving: a2eb6d166a

EMRs have the knowledge and skills necessary to provide immediate lifesaving interventions while awaiting additional emergency medical services (EMS) resources to arrive, typically in rural communities or other remote environments. EMRs also provide assistance to higher-level personnel at the scene of emergencies and during ambulance... a2eb6d166a Drowning is more likely to happen when spending extended periods... a2eb6d166a

List of diver certification organizations AUS/F00 AUSI Associated Underwater Scuba Instructors (formerly Australian Underwater Scuba Instructors) BEFOS-FEBRAS - Fédération Royale Belge De Recherches - This article lists notable underwater diver certification agencies. Diver certification agencies are organisations which issue certification of competence in diving skills under their own name, and which train, assess, certify and register the instructors licensed to present courses following the standards for the certification they issue. They are expected to provide quality assurance for the training done to their standards by licensed schools and instructors. These include certification

in cave diving, commercial diving, recreational diving, technical diving and freediving a2eb6d166a

SwimSafe SwimSafe is a basic swimming, water safety and rescue program designed specifically for children in low and middle income countries (LMICs) in Asia.
