Humans can enhance it through deliberate actions and use of technology. Carbon dioxide (CO2) is naturally captured from the atmosphere through biological, chemical, and physical processes. These processes can be accelerated for example through changes in land use and agricultural practices, called carbon farming. Artificial processes have also been devised to produce similar effects. This approach is called carbon capture... eefd16da43 Good articles in Wikipedia eefd16da43

A good article (GA) is a Wikipedia article that meets a core set of editorial standards, the good article criteria, passing through the good article nomination process successfully. They are well-written, contain factually accurate and verifiable information, are broad in coverage, neutral in point of view, stable, and illustrated, where possible, by relevant images with suitable copyright licenses. Good articles do not have to be as comprehensive as featured articles (FA), but they should not omit any major facets: a comparison of the criteria for good and featured articles describes further differences. eefd16da43 23:48, 31 Oct 2004 Chris Edgemon uploaded "CAIndependienteLogo... eefd16da43 Reviewing initiatives:Backlog drivesMentorshipReview circlesPledges eefd16da43
