ICP is the host of the Infinity Awards, inaugurated in 1985 "to bring public attention to outstanding achievements in photography by honoring individuals with distinguished careers in the field and by identifying future luminaries." 964688c9f8 Erotic photographs are normally intended for commercial use, including mass-produced items such as decorative calendars, pinups and for men's magazines, such as Penthouse and Playboy, but many art photographers have also dabbled in detailed or erotic imagery. Additionally, sometimes erotic photographs are intended to be seen only by a subject's partner. Glamour photography is frequently erotic. 964688c9f8

Photography in China Affluent Chinese adopted photography as a hobby; Empress Dowager Cixi Photography in China (in Chinese 摄影 shè yǐng, literally 'capturing images', although other appellations exist) dates back to the mid-19th century with the arrival of European photographers in Macao. In the 1850s, western photographers set up studios in the coastal port cities, but soon their Chinese assistants and local competition spread to all regions. photographers documented ordinary street life, major wars, and prominent figures 964688c9f8

By the end of the 19th century, all major cities had photographic studios where middle-class Chinese could have portraits taken for family occasions. Western and Chinese photographers documented ordinary street life, major wars, and prominent figures. Affluent Chinese adopted photography as a hobby; Empress Dowager Cixi had her portrait taken repeatedly. In the 20th century, photography in China—as in other countries around the world—was used for recreation, record keeping, newspaper and magazine journalism, political propaganda, and fine-art photography. 964688c9f8

Reactions to photography differ between societies, and even where there are no official restrictions there may be objections to photographing people or places. Reactions may range from complaints to violence for photography which is not illegal. 964688c9f8 Knowing... 964688c9f8 Crime scenes can be major sources of physical evidence that is used to associate or link suspects to scenes, victims to scenes, and suspects to victims. Locard's exchange principle is a major concept that helps determine evidence relationships. It is the basic tenet of why crime scenes should be investigated. Anything found at a crime scene can be used as physical evidence as long as it is relevant to the case, which is why the documentation of a crime scene and physical evidence in its true form is key for the interpretation of the investigation. 964688c9f8 == Function == 964688c9f8

This status has been reinforced by major institutional exhibitions such as Night Vision at the Metropolitan Museum of Art and Night Light: A Survey of 20th Century Night Photography, organized by the Nelson-Atkins Museum of Art in 1989, which toured nationally; both exhibitions underscored the genre's historical and artistic significance. Recognized as a photographic genre for more than a century, it is valued for its distinctive visual atmosphere and expressive potential 964688c9f8

Candid photography Candid photography is often seen as a more honest representation of the subject than posed photography. This style of photography is most often used to capture people in their natural state without them noticing the camera. Candid photography captures natural expressions and moments that might not be possible to reproduce in a studio or posed photo shoot. It is a popular style of photography for street photography, wedding photography, portrait photography, and event photography. The main focus is on capturing the candid expressions and moments of life. This is usually done by analyzing the spectrum of colors into three channels of information, one dominated by red, another by green and the third by blue, in imitation of the way the normal human eye senses color. The recorded information is then used to reproduce the original colors by mixing various proportions of red, green and blue light (RGB color, used by video displays, digital

projectors and some historical photographic processes), or by using dyes or pigments to remove various proportions of the red, green and blue which are present in white light (CMY color, used for prints on paper and transparencies on film). 964688c9f8

In a spectrum, erotic photography is often distinguished from nude photography, which contains nude subjects not necessarily in erotic situations, and pornographic photography, which is of a sexually detailed nature. Pornographic photography generally moves in the direction of the "obscene", and is judged as lacking in artistic or aesthetic value; however, the line between art and pornography has been both socially and legally debated, and many photographers have created work that intentionally ignores these distinctions. 964688c9f8 Since its founding in 1974 by Cornell Capa with help from Micha Bar-Am in Willard Straight House, on Fifth Avenue's Museum Mile, ICP has presented over 500 exhibitions, bringing the work of more than 3,000 photographers and other artists to the public in one-person and group exhibitions and provided various classes and workshops for students. 964688c9f8

The low-light conditions night photographers work in require specialized techniques to achieve proper exposure, including long exposures—ranging from several seconds to days—higher ISO sensitivity, or artificial lighting. Advances in cameras, lenses, high-speed films, and high-sensitivity digital sensors have made it increasingly feasible to photograph at night using only available light, resulting in a growing body of nocturnal photography. Software innovations have also further expanded the creative
