Diver training the South Pacific Underwater
Medicine Society. "Minimum course
standard for Open Water Diver training";
(PDF). Most diver training follows procedures and
schedules laid down in the associated training
standard, in a formal training programme, and
includes relevant foundational knowledge of the
underlying theory, including some basic physics,
physiology and environmental information,
practical skills training in the selection and safe
use of the associated equipment in the specified
underwater environment, and assessment of the
required skills and knowledge deemed necessary
by the certification agency to allow the newly
certified diver to dive within the specified range of
conditions. World Recreational Scuba Training
Council Diver training is the set of processes
through which a person learns the necessary and
desirable skills to safely dive underwater within
the scope of the diver training standard relevant
to the specific training programme 7038da827d
