Feminization of poverty All Volumes (2001-2008). The traditional stereotypes of women remain embedded in many cultures restricting income opportunities and community

involvement for many women. Matched with a low foundation income, this can manifest to a cycle of poverty and thus an inter-generational issue. Archived from the original Feminization of poverty refers to a trend of increasing inequality in living standards between men and women due to the widening gender gap in poverty. IV. Causes of the feminization of poverty include the structure of family and household, employment, sexual violence, education, climate change, "femonomics" and health. This phenomenon largely links to how women and children are disproportionately represented within the lower socioeconomic status community in comparison to men within the same socioeconomic status.
