In international law, nationality is a legal identification establishing the person as a subject, a national, of a sovereign state. It affords the state jurisdiction over the person and affords the person the protection of the state against other states. The rights and duties of nationals vary from state to state, and are often complemented by citizenship law, in some contexts to the point where citizenship is synonymous with nationality. However, nationality differs technically and legally from citizenship, which is a different legal relationship between a person and a country... 9f90ac4a92 During the early colonial period, residents of the French colonies were French subjects, governed by French nationality law, while residents of British colonies were British subjects, governed by British law.
