An essential element of historical fiction is that it is set in the past and pays attention to the manners, social conditions and other details of the depicted period. Authors also frequently choose to explore notable historical figures in these settings, allowing readers to better understand how these individuals might have responded to their environments. The historical romance usually seeks to romanticize eras of the past. Some subgenres such as alternate history and historical fantasy insert intentionally ahistorical or speculative elements into a novel.

The film was a critical and financial success, and while on the surface the plot is both a war story and a romance set in Napoleonic times, it was also intended to function as a film that would portray Britain positively within the context of World War II, which was being fought at that time. At the time it was released, France, Belgium, the Netherlands, Norway, Poland and Denmark were all occupied by Germany and the Soviet Union was still officially allied with the Third Reich, so the British were fighting against the Nazis alone and felt the need to produce films that would both boost their morale and also portray them sympathetically to the foreign world, especially the United States. On Rotten Tomatoes, That Hamilton Woman has...
