As per the 2023 list of NBFCs issued by the Reserve Bank of India, Bajaj Finance Limited holds the second position in the upper layer based on scale-based regulation guidelines. Other closely related microscopy methods to digital holographic microscopy are interferometric microscopy, optical coherence tomography and diffraction phase microscopy. Common to all methods is the use of a reference wave front to obtain amplitude (intensity) and phase information. The information... Digital holographic microscopy Instead, the light wave front information originating from the object is digitally recorded as a hologram, from which a computer calculates the object image by using a numerical reconstruction algorithm. Qu Weijuan; Chee Oi Choo; Yu Yingjie; Anand Asundi (2010). S2CID 121170457. "Microlens characterization by digital holographic microscopy with physical spherical Digital holographic microscopy (DHM) is digital holography applied to microscopy. Digital holographic microscopy distinguishes itself from other microscopy methods by not recording the projected image of the object. The image forming lens in traditional microscopy is thus replaced by a computer algorithm 5060aae2eb

DACs are commonly used in music players to convert digital data streams into analog audio signals. They are also used in televisions and mobile phones to convert digital video data into analog video signals. These two applications use DACs at opposite ends of the frequency/resolution trade-off. The audio DAC is a low-frequency, high-resolution type while the video DAC is a high-frequency low- to medium-resolution type. 5060aae2eb
