Bone They are lightweight yet strong and hard and serve multiple functions. Bones protect the various other
organs of the body, produce red and white blood cells, store minerals, provide structure and support for the
body, and enable mobility. Bones come in a variety of shapes and sizes and have complex internal and external
structures. A bone is a rigid organ that constitutes part of the skeleton in most vertebrate animals. Bones
protect the various other organs of the body, produce red A bone is a rigid organ that constitutes part of the

2011 ef2a420176 < November 7 ef2a420176 May - August 2018 ef2a420176 Ankylosing spondylitis is believed to
involve a combination of genetic and environmental factors. More than 90% of people affected in the UK have a
specific human leukocyte antigen known as the HLA-B27 antigen. The underlying mechanism is believed to be
autoimmune or autoinflammatory. Diagnosis is based on symptoms with support from medical imaging and blood tests.
AS is a type of seronegative spondyloarthropathy, meaning that tests show no presence... ef2a420176 September -

Wikipedia:WikiProject Dinosaurs/Image review/Archive September 2018 - December 2018 They are based on Carpenter's. but undescribed elements, gray represents unknown elements. Sacrum and appendicular elements still need to be fully restored

WP:DINOART Bone tissue (osseous tissue), which is also called bone in the uncountable sense of that word, is hard tissue, a type of specialised connective tissue. It has a honeycomb-like matrix internally, which helps to give the bone rigidity. Bone tissue is made up of different types of bone cells. Osteoblasts and osteocytes are involved in the formation and mineralisation of bone; osteoclasts...

Ankylosing spondylitis Joint mobility in the affected areas sometimes worsens over time. It is characterized by long-term inflammation of the joints of the spine, typically where the spine joins the pelvis. Primary engagement of the appendicular joints may explain delayed diagnosis; however, other common symptoms Ankylosing spondylitis (AS) is a type of arthritis from the disease spectrum of axial spondyloarthritis. With AS, eye and bowel problems—as well as back pain—may occur. as well as presence of the HLA-B27 allele

December 2006 2009 This page is mainly for reviewing the accuracy of dinosaur life restorations (usually by the artists themselves, but anyone who wants an image scrutinized is welcome to post it for review). Any other image, such as size comparisons or photos of skeletal mounts, can ... 2012 - 2013 2014 Gallery of approved images 2016 January - April 2019 Welcome to the Wikipedia Science Reference Desk Archives
