Most Insular art originates from the Irish monastic movement of Celtic Christianity, or metalwork for the secular elite, and the period begins around 600 with the combining of Celtic and Anglo-Saxon styles. One major distinctive feature is interlace decoration, in particular the interlace decoration as found at Sutton Hoo, in East Anglia. This is now applied to decorating new types of objects mostly copied from the Mediterranean world, above all the codex or book. == Rainbow Magic == The word aquavit derives from the Latin aqua vitae, "water of life." The cake has a decorative face and feet made of white chocolate. The dessert is available in large and small sizes. The cake's distinct ingredient is the pandan leaf, which gives the cake its iconic green colour. Occasionally, the cakes will contain ingredients with green food colouring to further emphasize the green hue. The cakes are not always made with the leaf juice, as they can be flavoured with Pandanus extract, in which case colouring is only added if a green hue is desired. Freshly squeezed juices from pandan leaves also give the cake a stronger aroma compared to pre-juiced essences. == Etymology == 6071b6f62e Akvavit gets its distinctive flavour from spices and herbs, and the dominant flavour must (according to the European Union) come from a distillate of caraway and/or dill seed. It typically contains 40% alcohol by volume, or 80 proof (U.S.). The EU has established a minimum of 37.5% ABV for akvavit to be named as such. 6071b6f62e In the sixteenth century the nobility in many countries of Europe imported strong, long-legged dogs of different sizes and phenotypes, some of mastiff or greyhound type, from England and Ireland. These dogs were called Englische Docke or Englische Tocke (later written and spelled Dogge) or Englischer Hund in Germany. The name simply meant "English dog". Since then, the English word "dog" has come to be associated with a molossoid dog in Germany and France. These dogs were bred in the courts of German nobility, independent of the English methods, since the start of the 17th century. 6071b6f62e Initial success for sales of the cake has been attributed to the ongoing popularity of Eric Carle's children's picture book The Very Hungry Caterpillar (1969), and that a bestselling cookbook by Jane Asher, published the same year that the cake launched (1990), also featured a recipe for a caterpillar birthday cake. Colin the Caterpillar has since become a staple of children's birthday parties, but is also popular with teens and adults. 6071b6f62e

Insular art Art historians usually group Insular art as part of the Migration Period art movement as well as Early Medieval Western art, and it is the combination of these two traditions that gives the style its special character. The term derives from insula, the Latin term for "island"; in this period Britain and Ireland shared a largely common style different from that of the rest of Europe.
