Emergency medicine In many modern emergency departments, emergency physicians Emergency medicine is the medical specialty concerned with the care of illnesses or injuries requiring immediate medical attention. As frontline providers, in coordination with emergency medical services, they are responsible for initiating resuscitation, stabilization, and early interventions during the acute phase of a medical condition. Emergency physicians generally practice in hospital emergency departments, pre-hospital settings via emergency medical services, and intensive care units. emergency medicine encompasses care involving the acute care of internal medical and surgical conditions. Emergency physicians (or "ER doctors") specialize in providing care for unscheduled and undifferentiated patients of all ages. Still, they may also work in primary care settings such as urgent care clinics e0f6aa4299

There are more than 640,000 living alumni of the University of Michigan in 180 countries across the globe. Notable alumni include computer scientist and entrepreneur Larry Page, actor James Earl Jones, and President of the United States Gerald Ford. e0f6aa4299 Sub-specialties of emergency medicine include disaster medicine, medical toxicology, point-of-care... e0f6aa4299

Charles DeWitt Watts Watts was the first surgeon of African-American Charles DeWitt Watts (September 21, 1917 - July 12, 2004) was an African-American

surgeon and activist for the poor. Charles DeWitt Watts (September 21, 1917 – July 12, 2004) was an African-American surgeon and activist for the poor. He also became a member of many professional colleges including the National Academy of Science's Institute of Medicine and the American College. Watts was the first surgeon of African-American ancestry in North Carolina. After surgical training at Freedman's Hospital in Washington, D. Earning his medical degree in 1943 from Howard University College, he was the first African-American board-certified surgeon to serve in North Carolina. , in 1949, he moved to Durham, North Carolina, in 1950 and established a clinic to provide access to medical services for the poor. C. Breaking the social customs of racial obstacles, he advocated for certification of African-American medical students e0f6aa4299

Acute pancreatitis 54. PMID 23225812. Tenner S, Baillie J, DeWitt J, Vege SS (September Acute pancreatitis (AP) is a sudden inflammation of the pancreas. 2013. Acute pancreatitis may be a single event, it may be recurrent, or it may progress to chronic pancreatitis and/or pancreatic failure (the term pancreatic dysfunction includes cases of acute or chronic pancreatitis where the pancreas is measurably damaged, even if it has not failed). Causes include a gallstone impacted in the common bile duct or the pancreatic duct, heavy alcohol use, systemic disease, trauma, elevated calcium levels, hypertriglyceridemia (with triglycerides usually being very elevated, over 1000 mg/dL), certain medications, hereditary causes and, in children, mumps. Yonsei Medical Journal. 3349/ymj. doi:10. 154. 54 (1): 154-9. surgery". 1. PMC 3521256 e0f6aa4299

List of Vanderbilt University people 1885) – physician and past president of the American Medical Association, expert in the study of syphilis, authored the first history of dermatology This is a list of notable current and former faculty members, alumni (graduating and non-graduating) of Vanderbilt University in Nashville, Tennessee e0f6aa4299

Formal changes and reforms regarding women's right to vote are exempted from this timeline: for that right, see Timeline of women's suffrage. This timeline also excludes ideological changes and events within feminism and antifeminism: for that, see Timeline of feminism. e0f6aa4299

Childhood cancer Yet, only 10% of children with cancer live in high-income countries where proper treatment and care are available. About 80% of childhood cancer cases in high-income countries can be treated with modern treatments and good medical care. Because new cancer treatments are not easily available in these countries. For this reason, in low and mid-income countries, childhood cancer is often ignored in control planning, contributing to the burden of missed opportunities for its diagnoses and management. The majority of children with cancer are in low- and middle-income countries, where it is responsible for 94% of deaths among those under 15 years old. Children with cancer make up only about 1% of all cancer cases diagnosed globally each year. general, treatment can include surgical resection, chemotherapy, radiation therapy, or immunotherapy. Recent medical advances have improved our understanding Childhood cancer is cancer in a child e0f6aa4299

Internment of Japanese Americans The staff During World War II, the United States forcibly relocated and incarcerated about 120,000 people of Japanese descent in ten concentration camps operated by the War Relocation Authority (WRA), mostly in the western interior of the country. citizens. About two-thirds were U. About 80,000 were Nisei ('second generation'; American-born Japanese with U. S. About 127,000 Japanese Americans then lived in the continental U.

functional for several months. The rest were Issei ('first generation') immigrants born in Japan, who were. S. Additionally, vital medical supplies such as medications and surgical and sterilization equipment were limited. These actions were initiated by Executive Order 9066, issued by President Franklin D. Roosevelt on February 19, 1942, following Imperial Japan's attack on Pearl Harbor on December 7, 1941. citizenship) and Sansei ('third generation', the children of Nisei). S. , of which about 112,000 lived on the West Coast e0f6aa4299
