The H7 family replaced the H6 series, which had been in serial production since 1992. The concept and design of the H6 served as the basis for developing the early versions of the Autosan H7, produced between 2000 and 2001. In 2001, the series underwent a significant modernization, introducing a new body design and modifications to the chassis and drivetrain. The production of the final variants ended in 2006 with the introduction of the new Autosan Solina mini-class bus family.
