Cosmetics adding colour and texture to the lips, such as lipsticks and lip glosses, often come in a wide range of colors as well as a number of different finishes. Cosmetics are substances that are intended for application to the body for cleansing, beautifying, promoting attractiveness, or altering appearance. Cosmetics have various purposes, including personal and skin care. They are mixtures of chemical compounds derived from either natural sources or created synthetically. They can also be used to conceal blemishes and enhance natural features (such as the eyebrows and eyelashes).
