Alcoholism The World Health Organization (WHO) estimated there were 283 million people with alcohol use disorders worldwide as of 2016. Some definitions require evidence of dependence and withdrawal. Nashville, TN: The Southwestern Company. Vol. 2009. ISBN 978-0-7637-1461-1. The term alcoholism was first coined in 1852, but alcoholism and alcoholic are considered stigmatizing and likely to discourage seeking treatment, so diagnostic terms such as alcohol use disorder and alcohol dependence are often used instead in a clinical context. ISBN 978-0-87197-208-8. p. 1. [permanent Alcoholism is the continued drinking of alcohol despite it causing problems. Other terms, some slurs and some informal, have been used to refer to people affected by alcoholism such as tippler, sot, drunk, drunkard, dipsomaniac and souse. 29. The Volume Library. Problematic alcohol use has been mentioned in the earliest historical records. "Biology" [a5af3d4a9c](#)

History of numerical weather prediction Though first attempted manually in the 1920s, it was not until the advent of the computer and computer The history of numerical weather prediction considers how current weather conditions as input into mathematical models of the atmosphere and oceans to predict the weather and future sea state (the process of numerical weather prediction) has changed over the years. weather prediction) has changed over the years. Though first attempted manually in the 1920s, it was not until the advent of the computer and computer simulation that computation time was reduced to less than the forecast period itself. ENIAC was used to create the first forecasts via computer in 1950, and over the years more powerful computers have been used to increase the size of initial datasets and use more complicated versions of the equations of motion. The development of global forecasting models led to the first climate models. The development of limited area (regional [a5af3d4a9c](#)
