African Romance Sono una (razza a sé) delle razze dei Rum. [. della Sardegna, in origine sono dei Rum Afariqah, berberizzanti, indomabili.] Sono pronti al richiamo African Romance, African Latin or Afroromance is an extinct Romance language that was spoken in the various provinces of Roman Africa by the African Romans under the later Roman

Empire and its various post-Roman successor states in the region, including the Vandal Kingdom, the Byzantine-administered Exarchate of Africa and the Berber Mauro-Roman Kingdom. African Romance is poorly attested as it was mainly a spoken, vernacular language. There is little doubt, however, that by the early 3rd century AD, some native provincial variety of Latin was fully established in Africa
