English auxiliary verbs Although the auxiliary verbs of English are widely believed to lack inherent semantic meaning and instead to modify the meaning of the verbs they accompany, they are nowadays classed by linguists as auxiliary on the basis not of semantic but of grammatical properties: among these, that they invert with their subjects in interrogative main clauses (Has John arrived.) and are negated either by the simple addition of not (He has not arrived) or (with a very few exceptions) by negative inflection (He hasn't arrived). Wiseman's Complete English Grammar of 1764 notes that most verbs cannot be conjugated through all their Moods and Tenses, without one of the following principal English auxiliary verbs are a small set of English verbs, which include the English modal auxiliary verbs and a few others

Na'vi language The language was created by Paul Frommer, a professor at the USC Marshall School of Business with a doctorate in linguistics. Na'vi was designed to fit moviemaker James Cameron's conception of what the language should sound like in the film. It had to be realistically learnable by the fictional human characters of the film and pronounceable by the actors, but also not closely resemble any single human language. forms, the latter two of which may co-occur with a tense/aspect/mood infix by preceding it.
