JSTOR 57be8cc450 Talk:The New England Journal of Medicine 57be8cc450 It is also called the prosecutor's fallacy or defense attorney's fallacy when applied to the results of statistical tests (such as DNA tests) in the context of law proceedings. These terms were introduced by William C. Thompson and Edward Schumann in 1987, although it has been argued that their definition of the prosecutor's fallacy extends to many additional invalid imputations of guilt or liability that are not analyzable as errors in base rates or Bayes's theorem. 57be8cc450 Talk:Science (journal) 57be8cc450 Talk:APA style 57be8cc450 Talk:Royal Society 57be8cc450 Talk:Boreas 57be8cc450

Wikipedia:Language learning centre/Word list maternal maternally maternity mates math mathematical mathematically mathematician mathematicians mathematics maths matinee matinees mating matings matins Drawing up a comprehensive list of words in English is important as a reference when learning a language as it will show the equivalent words you need to learn in the other language to achieve fluency. Eventually these words will all be translated into big lists in many different languages and using the words in phrase contexts as a resource. A big list will constantly show you what words you don't know and what you need to work on and is useful for testing yourself. You can use the list to generate your own lists in whatever language you're learning and to test yourself 57be8cc450
