Spreadsheet Spreadsheets were developed as computerized analogs of paper accounting worksheets. Each cell may contain either numeric or text data, or the results of formulas that automatically calculate and display a value based on the contents of other cells. The program operates on data entered in cells of a table. The term spreadsheet may also refer to one such electronic document. A workbook is physically represented by a file containing all the data for the A spreadsheet is a computer application for computation, organization, analysis and storage of data in tabular form. as worksheets or simply sheets, are gathered together to form a workbook

Wikipedia:Language learning centre/Word list A big list will constantly show you what words you don't know and what you need to work on and is useful for testing yourself. You can use the list to generate your own lists in whatever language you're learning and to test yourself. Eventually these words will all be translated into big lists in many different languages and using the words in phrase contexts as a resource. wordsmith wordy wore work workability workable workaday workbench workbook workbooks workday workdays worked worker workers workfare workforce workforces Drawing up a comprehensive list of words in English is important as a reference when learning a language as it will show the equivalent words you need to learn in the other language to achieve fluency
