List of computer scientists Abramsky - game semantics Leonard Adleman - RSA, DNA computing Manindra Agrawal - polynomial-time primality testing Luis von Ahn - human-based computation This is a list of computer scientists, people who do work in computer science, in particular researchers and authors d11ba52983

The term "radiance field" may also be used to refer to similar, or identical concepts. The term is used in modern research such as neural radiance fields d11ba52983

Sanjay Govind Dhande "Computer Aided Engineering Graphics and Design", by Sanjay G Dhande. From the year 2016 to 2020, Professor Dhande was the Chairman, Board of Governors of National Institute of Industrial Engineering (NITIE), Mumbai, an Institute established by the Government of India in the year 1963. The book-manuscript is under preparation Sanjay Govind Dhande is an Indian mechanical engineer and educationist. He was also Chairman, Board of Governors of National Institute of Technology Delhi (NIT Delhi). held at COSTED, Madras, September 1986. He is alumnus of College of engineering Pune. He was Director of the Indian Institute of Technology Kanpur and was in temporary charge of the Indian Institute of Information Technology and Management Gwalior d11ba52983

Engineering drawing These drawings are linked together by a "master drawing. Brunel: A Biography, Longmans Green, LCCN 57003475. Basant Agrawal and C M Agrawal (2013). A common use is to specify the geometry necessary for the construction of a component and is called a detail drawing. " This "master drawing" is more commonly known as an assembly drawing. The assembly drawing gives the drawing numbers of the subsequent detailed components, quantities required, construction materials and possibly 3D images that can be used to locate individual items. Although mostly consisting of pictographic representations, abbreviations and symbols are used for brevity and additional textual explanations may also be

provided. Second Edition, McGraw Hill Education India An engineering drawing is a type of technical drawing that is used to convey information about an object. Usually, a number of drawings are necessary to completely specify even a simple component. Engineering Drawing d11ba52983

Subhasis Chaudhuri a former K. He is known for his pioneering studies on computer vision and is an elected fellow of all the three major Indian science academies viz. Bajaj Chair Professor of the Department of Electrical Engineering of IIT Bombay. N. N. The Council of Scientific and Industrial Research, the apex agency of the Government of India for scientific research, awarded. He is a former K. the National Academy of Sciences, India, Indian Academy of Sciences, and Indian National Science Academy. He is known for his pioneering studies on computer vision Subhasis Chaudhury (born 1 March 1963) is an Indian electrical engineer, former director at the Indian Institute of Technology, Bombay (IIT Bombay) and currently Chairman of the Board of Directors of BSE Limited. He is also a fellow of Institute of Electrical and Electronics Engineers, and the Indian National Academy of Engineering. Bajaj Chair Professor of the Department of Electrical Engineering of IIT Bombay d11ba52983

Synthetic jet Agrawal, Amit; Verma, Gunjan (2008). Physics of Fluids. "Similarity analysis of planar and axisymmetric In fluid dynamics, a synthetic jet flow—is a type of jet flow, which is made up of the surrounding fluid. Synthetic jets are produced by periodic ejection and suction of fluid from an opening. 1063/1. This oscillatory motion may be driven by a piston or diaphragm inside a cavity among other ways. synthetic jets". 10 (9): 2281–2297. 869828. doi:10 d11ba52983

Some persons notable as programmers are included here because they work in research as well as program. A few of these people pre-date the invention of the digital computer; they are now regarded as computer scientists because their work can be seen as leading to the invention of the computer. Others are mathematicians whose work falls within what would now be called theoretical computer science, such as complexity theory and algorithmic information theory. d11ba52983

Alyssa Rosenzweig developer and software freedom activist known for her work on free software graphics drivers. Per Rosenzweig's description of her childhood, she grew up in Alyssa Rosenzweig is a software developer and software freedom activist known for her work on free software graphics drivers d11ba52983

Pravega Racing team led by Naman Shukla and team manager Nikhil Agrawal led onto gaining the highest ever points scored by an Indian team at the Engineering Design Event Pravega Racing is the Formula-SAE combustion team of Vellore Institute of Technology, Vellore, India. The primary aim of the team is to design, manufacture, and test a single seater race car and compete in the Formula Student and FSAE events d11ba52983

P. V. S. Rao The Government of India awarded him the fourth highest civilian honour of Padma Shri in 1987. He is a recipient of awards such as IEEE Third Millenium Medal, Vikram Sarabhai Award, Om Prakash Bhasin Award and VASVIK Industrial Research Award. obtained a doctoral degree in Physics for his work on the display of text and graphics on computer screens from the University of Mumbai. He worked there for Paranandi Venkata Suryanarayana Rao is an Indian computer scientist, known for his research in the fields of speech and script recognition and is credited with contributions to the development of TIFRAC, the first indigenously developed electronic computer in India d11ba52983

Light field useful in understanding other concepts in vision and graphics. Michael Faraday was the first to propose that light should be interpreted as a field, much like the magnetic fields on which he had been working. The term light field was coined by Andrey Gershun in a classic 1936 paper on the radiometric properties of light in three-dimensional space. The space of all possible light rays is given by the five-dimensional plenoptic function, and the magnitude of each ray is given by its radiance. Since rays in space can be parameterized by three coordinates, x , y , and z and two angles θ A light field, or lightfield, is a vector function that describes the amount of light flowing in every direction through every point in a space d11ba52983

A synthetic jet flow was so named by Ari Glezer since the flow is "synthesized" from the surrounding or ambient fluid. Producing a convectional jet requires an external source of fluid, such as piped-in compressed air or plumbing for water. d11ba52983 Professor Dhande was the founder director of Indian Institute of Information Technology, Design and Manufacturing, Jabalpur. He served as a part-time member of Telecom Regulatory Authority of India. Also, he... d11ba52983

Rajat Moona He has also served as Director of Indian Institute of Information Technology, Vadodara on additional Charge Basis from 2023 till 2024. Institute of Technology. He has served as director at Indian Institute of Technology, Bhilai from March 2017
