Ravindra Kumar Sinha (physicist) He also served as the Director of the CSIR-Central Scientific Instruments Organisation (CSIR-CSIO) Sector-30C, Chandigarh-160 030, India. 2001). "MATCHING TECHNIQUE OF OBJECTS IN RADARS WITH STEREOSCOPIC VISION"; R K Sinha (born 15 February 1960) served as Vice Chancellor of Gautam Buddha University, Greater Noida, Gautam Budh Nagar under Uttar Pradesh Government during January 28, 2022 to Jan 27, 2025. of India Delhi Technological University (formerly Delhi College of Engineering, University of Delhi) Bawana Road, Delhi-110042, India since October 2002. Journal of Microwaves, Optoelectronics and Electromagnetic Applications. He has been as Professor - Applied Physics, Dean-Academic [UG] & Chief Coordinator: TIFAC-Center of Relevance and Excellence in Fiber Optics and Optical Communication, Mission REACH Program, Technology Vision-2020, Govt. 2 (3): Prof b217648280

April-June 2020 in science radar using quantum entanglement and microwaves which may potentially be useful for the development of improved radar systems, security scanners and medical This article lists a number of significant events in science that have occurred in the second quarter of 2020 b217648280

For the purpose of this list, the inventions are regarded as technological firsts developed within territory of India, as such does not include foreign technologies which India acquired through... b217648280

Arecibo Telescope Completed in November The Arecibo Telescope was a 305 m (1,000 ft) spherical reflector radio telescope built into a natural sinkhole at the Arecibo Observatory located near Arecibo, Puerto Rico. A cable-mounted, steerable receiver and several radar transmitters for emitting signals were mounted 150 m (492 ft) above the dish. Rico. A cable-mounted, steerable receiver and several radar transmitters for emitting signals were mounted 150 m (492 ft) above the dish. Completed in November 1963, the Arecibo Telescope was the world's largest single-aperture telescope for 53 years, until it was surpassed in July 2016 by the Five-hundred-meter Aperture Spherical Telescope (FAST) in Guizhou, China b217648280

List of MOSFET applications Ampleon. Microwave Engineering Europe. "Why LDMOS is the best technology for RF energy". (21 June 2018). The voltage of the covered gate determines the electrical conductivity of the device; this ability to change conductivity with the amount of applied voltage can be used for amplifying or switching electronic signals. Archived from the original on 10 December 2019 The MOSFET (metal-oxide-semiconductor field-effect transistor) is a type of insulated-gate field-effect transistor (IGFET) that is fabricated by the controlled oxidation of a semiconductor, typically silicon b217648280

of India|cartography, metallurgy, logic, mathematics, metrology and mineralogy were among the branches of study pursued by its scholars. During recent times science and technology in the Republic of India has also focused on automobile engineering, information technology, communications as well as research into space and polar technology. b217648280 misc b217648280 For a listing of ongoing discussions, see the da... b217648280

Potential applications of graphene R. ; Zhong, Z. ; Pahwa, S. "Synthesis of Graphene Films by Rapid Heating and Quenching at Ambient Pressures and Their Potential graphene applications include lightweight, thin, and flexible electric/photronics circuits, solar cells, and various medical, chemical and industrial processes enhanced or enabled by the use of new graphene materials, and favoured by massive cost decreases in graphene production. ; Kulkarni, G. ; Singh, G. (2013) b217648280

Centralized discussion b217648280 Guide to deletion b217648280 The MOSFET is the basic building block of most modern electronics, and the most frequently manufactured device in history, with an estimated total of 13 sextillion (1.3×10^{22}) MOSFETs manufactured between 1960 and 2018. It is the most common semiconductor device in digital and analog circuits, and the most common power device. It was the first truly compact transistor that... b217648280 Future of Wikinews (potential merger with Wikipedia) b217648280 idea lab b217648280 Feedback on proposals on WMF communication and experimentation b217648280 14 June > b217648280

List of California Institute of Technology people Engineering for "developing high-efficiency microwave transmitters and active antenna arrays for wireless communication systems and for engineering education" The California Institute of Technology has had numerous notable alumni and faculty b217648280

Lunar habitation Lunar habitation is provided by surface habitats, possibly as part of a moonbase. ; Shoemaker, E. ; Robinson, M. ; Malaret, E. "The Clementine Bistatic Radar Experiment". Science. ; Ort, W. M. Bonner, R. 274 (5292): 1495–1498. Lunar habitation is any human habitation on the Moon. (1996) b217648280
