93772bd692 It is different from accounting profit, which only relates to the explicit costs that appear on a firm's financial statements. An accountant measures the firm's accounting profit as the firm's total revenue minus only the firm's explicit costs. An economist includes all costs, both explicit and implicit costs, when analyzing a firm. Therefore, economic profit is smaller than accounting profit. 93772bd692 Also, when adding a request, please include as much information as possible (such as webpages, articles, or other reference material) so editors can find and distinguish your... 93772bd692
