dff64024d7 The Internet Assigned Numbers Authority (IANA) is responsible for maintaining the official assignments of port
numbers for specific uses, However, many unofficial uses of both well-known and registered port numbers occur in practice.
Similarly, many of the official assignments refer to protocols that were never or are no longer in common use. This article
lists port numbers and their associated protocols that have experienced significant uptake. dff64024d7 77 dff64024d7 67

Underwater diving environment Archived from the original on 2008-05-02. Joiner The underwater diving environment, or just
diving environment is the natural or artificial surroundings in which a dive is done. Diving Manual, 6th revision.
Underwater diving is the human practice of voluntarily descending below the surface of the water to interact with the
surroundings, for various recreational or occupational reasons, but the concept of diving also legally extends to immersion
in other liquids, and exposure to other hyperbaric pressurised environments. 2006. Washington, DC: US Naval Sea Systems
Command. It is usually underwater, but professional diving is sometimes done in other liquids. Retrieved 2008-06-15
