List of English inventions and discoveries Often, things discovered for the first time are
 also called inventions and in many cases, there is no clear line between the two.
 Nonetheless, science and technology in England continued to develop rapidly in
 absolute terms. by Lord Baden-Powell (1857–1941), on finding that his 1899 military
 training manual Aids to Scouting was being used by teachers and youth organisations
 English inventions and discoveries are objects, processes or techniques invented,
 innovated or discovered, partially or entirely, in England by a person from England.
 Furthermore, according to a Japanese research firm, over 40% of the world's inventions
 and discoveries were made in the UK, followed by France with 24% of the world's
 inventions and discoveries made in France and followed by the US with 20%

Food loss and waste A 2021 meta-analysis, that did not include food lost during production, by the United Nations Environment Programme found that food waste was a challenge in all countries at all levels of economic development. Overall, about one-third of the world's food is thrown away. The analysis estimated that global food waste was 931 million tonnes of food waste (about 121 kg per capita) across three sectors: 61 percent from households, 26 percent from food service and 13 percent from retail. A similar amount is lost on top of that by feeding human-edible food to farm animals (the net effect wastes an estimated 1144 kcal/person/day). waste in the form of wastewater coming from commercial kitchens' sinks, dishwashers and floor drains is collected in holding tanks called grease interceptors The causes of food going uneaten are numerous and occur throughout the food system, during production, processing, distribution, retail and food service sales, and consumption c1c7def75e
