Science education " Secondary science should focus on Science education is the teaching and learning of science to school children, college students, or adults within the general public. The standards for science education provide expectations for the development of understanding for students through the entire course of their K-12 education and beyond. The traditional subjects included in the standards are physical, life, earth, space, and human sciences. Elementary science should focus on simple natural phenomena (nature study) by means of experiments carried out "in-the-field. The field of science education includes work in science content, science process (the scientific method), some social science, and some teaching pedagogy 448459b2b3

The model textbooks published by the council for adoption by school systems across India have generated controversies over the years. They have been accused of reflecting the political views of the party in power in the Government of India. In particular, during the years of Bharatiya Janata Party-ruled governments, they were accused of "saffronising" Indian history (i.e., reflecting Hindu nationalist views) and engaging in historical revisionism. 448459b2b3 Despite the efforts of the nationalist textbook reformers... 448459b2b3
