

Powerpoint Xp Teach Yourself Quick Fix

The message "Compile error in hidden module: AutoExec" shows whenever I start my Word 2000. After clicking OK I can use it normally, but the message shows again when I close it. It seems to be no more than an annoyance. Any idea what this means, and how I can fix it? 24.92.78.167 (talk) 00:39, 27 August 2010 (UTC) bce3c37903 The subject is a highly unusual or ironic combination of concepts, such as cosmic latte, death from laughter, etc. bce3c37903 Non-notable DaveWF (talk) 04:17, 11 June 2008 (UTC)reply bce3c37903 Comment I've removed the copyvio/advert text from the article. This latest one may have been prompted because the election has just been called in New Zealand, and not for the first time I've found myself thinking that in the UK we just don't hear nearly enough about New Zealand. Seems like half the country has relatives who've emigrated there, but it must be a black hole from which no news ever returns. So my question is, what are the main news and current affairs radio stations in New Zealand, and (I'm more concerned about this bit) how much is there available to listen to over the internet? From a quick look at the relevant Wikipedia articles I came across Morning Report on Radio New Zealand's National Radio, but it doesn't seem to be possible to hear it over the internet. Any ideas? Secondary question to anyone familiar with British TV: when was the last time you saw anything on over here from New Zealand? I racked my brains and somehow came up with Shortland Street which I believe was shown a few years ago and sure enough turns out to be... bce3c37903
