Risk Association of Project Management. Analysis and Management Guide. One international standard definition of risk is the "effect of uncertainty on objectives". 1997. Many different definitions have been proposed. A Guide to the Project Management Body of Knowledge (4th Edition) ANSI/PMI 99-001-2008 In simple terms, risk is the possibility of something bad happening. Risk involves uncertainty about the effects/implications of an activity with respect to something that humans value (such as health, well-being, wealth, property or the environment), often focusing on negative, undesirable consequences 95018f0f63

Psychology still being debated among academics. As social scientists, psychologists aim to understand the behavior of individuals and groups. The testing of animals for research has led to medical breakthroughs in human medicine. Psychology is an academic discipline of immense scope, crossing the boundaries between the natural and social sciences. Biological psychologists seek an understanding of the emergent properties of brains, linking the discipline to neuroscience. Its subject matter includes the behavior of humans and nonhumans, both conscious and unconscious phenomena, and mental processes such as thoughts, feelings, and motives. Many psychologists argue animal Psychology is the scientific study of mind and behavior 95018f0f63

Mining Since Mining is the extraction of valuable geological materials and minerals from the surface of the Earth. Mining in a wider sense includes extraction of any non-renewable resource such as petroleum, natural gas, or even water. Ores recovered by mining include metals, coal, oil shale, gemstones, limestone, chalk, dimension stone, rock salt, potash, gravel, and clay. contributes to local human rights violations and environmental conflicts. Mining can also perpetuate political instability through resource conflicts. Mining is required to obtain most materials that cannot be grown through agricultural processes, or feasibly created artificially in a laboratory or factory. The ore must be a rock or mineral that contains valuable constituent, can be extracted or mined and sold for profit 95018f0f63
