Oil refinery "Estimation of VOC Emission in Petroleum Refinery ETP and Comparative Analysis with Measured VOC Emission Rate" (PDF). The crude oil feedstock has typically been processed by an oil production plant. www. In 2020, the total capacity of global refineries for crude oil was about 101. PMID 21243423. theijes An oil refinery or petroleum refinery is an industrial process plant where petroleum (crude oil) is transformed and refined into products such as gasoline (petrol), diesel fuel, asphalt base, fuel oils, heating oil, kerosene, liquefied petroleum gas and petroleum naphtha. Petrochemical feedstock like ethylene and propylene can also be produced directly by cracking crude oil without the need of using refined products of crude oil such as naphtha. S2CID 37042955. 2 million barrels per day. There is usually an oil depot at or near an oil refinery for the storage of incoming crude oil feedstock as well as bulk liquid products ab9976b084

The government closed the mill in 2020 saying it will be reopened after modernization. Pabna Sugar Mill Workers Union represented the workers of the mill. ab9976b084 Exchange-traded product ab9976b084 Ethylene to propylene ab9976b084 Energy Technology Perspectives, an annual report series of the International Energy Agency ab9976b084 Eastern Treatment Plant, in Melbourne, Australia ab9976b084 Entertainment Technology Partners, an American entertainment technology company ab9976b084

Gujarat Refinery It is the third largest refinery owned by Indian Oil Corporation after Paradip and Panipat Refinery. By September 1999 with the commissioning The Gujarat Refinery is an oil refinery located at Koyali, Vadodara District in Gujarat, Western India. commissioned South Asia’s largest centralised effluent treatment plant (ETP) by dismantling the four old ETPs in June 1999. The refinery is currently under projected expansion to 18 million tonnes per year ab9976b084

Today, it operates as a subsidiary of the Bangladesh Chemical Industries Corporation and holds the distinction of being the largest paper production facility in the country. However, in 2016, the mill faced criticism for its lack of an effluent treatment facility. ab9976b084

Ashuganj Fertilizer and Chemical Company Limited It is under the Bangladesh Chemical Industries Corporation of the Ministry of Industries. dedicated effluent treatment plant. It is one of four factories under the Bangladesh Chemical Industries Corporation to have an effluent treatment plant while Ashuganj Fertilizer and Chemical Company Limited (Bengali: আশুগঞ্জ ফার্টিলাইজার ও কেমিক্যাল কোম্পানী লিমিটেড) is a Bangladesh government owned fertilizer company. Ashuganj Sar Karkhana College is college affiliated with the company ab9976b084

Tarapith Rampurhat Development Authority It was formed in 2015 and works under the Department of Urban Development and Municipal Affairs, Government of West Bengal. Sewage and Effluent Treatment Plants: The authority is working on establishing a Sewage Treatment Plant (STP) and an Effluent Treatment Plant (ETP) near Tarapith The Tarapith Rampurhat Development Authority (TRDA) is the statutory body responsible for planning and development in the Maa Tara temple area at Tarapith and the Rampurhat city region in West Bengal, India ab9976b084

Pollution of the Ganges The river supplies water to approximately 40% of India's population across 11 states and serves an estimated 500 million people—more than any other river in the world. It aims to rehabilitate and augment existing The ongoing pollution of the Ganges, the largest river in India, poses a significant threat to both human health and the environment. in-situ treatment, innovative technologies, sewage treatment plants (STPs), and effluent treatment plants (ETPs) ab9976b084

This severe pollution stems from a confluence of factors, primarily the disposal of untreated human sewage and animal waste from numerous cities and towns along its banks, with a large proportion of sewage remaining untreated before discharge. Industrial waste, though accounting for a smaller volume, is a major concern due to its often toxic and non-biodegradable nature, dumped untreated into the river by various industries. ab9976b084 Entrepreneurship Theory and Practice, a scholarly journal ab9976b084

Karnaphuli Paper Mills Following the Independence of Bangladesh, it was nationalised and came under the management of the Bangladesh Industrial Development Corporation. country. However, in 2016, the mill faced criticism for its lack of an effluent treatment facility. The 1949 Industrial Conference recommended that a pulp and Karnaphuli Paper Mills, located in Chandraghona, Chittagong Division, Bangladesh, is a state-owned pulp and paper manufacturer established in 1951 by Pakistan Industrial Development Corporation (PIDC). The Dawoods took over from PIDC 1959 ab9976b084
