CAD data exchange and be independent of any vendor format. Major CAD systems, such as SolidWorks, PTC Creo, Siemens NX and CATIA can directly read and/or write other CAD CAD data exchange is a method of drawing data exchange used to translate between different computer-aided design (CAD) authoring systems or between CAD and other downstream CAX systems 47a262c7a1

Computer-aided design This software is used to
 increase the productivity of the designer, improve the
 quality of design, improve communications through
 documentation, and to create a database for
 manufacturing. CAD output is often in the form of
 electronic files for print, machining, or other
 manufacturing operations. Designs made through CAD
 software help protect products and inventions when
 used in patent applications. The terms computer-aided
 drafting (CAD) and computer-aided design and drafting
 (CADD) are also used. Rhinoceros 3D SketchUp Solid

The Internet Assigned Numbers Authority (IANA) is responsible for maintaining the official assignments of port numbers for specific uses, However, many unofficial uses of both well-known and registered port numbers occur in practice. Similarly, many of the official assignments refer to protocols that were never or are no longer in common use. This article lists port numbers and their associated protocols that have experienced significant uptake. 47a262c7a1 Since the 1980s, a range of different CAD technologies have emerged. They differ in their application aims, user interfaces, performance levels, and in data structures and data file formats. For interoperability purposes... 47a262c7a1 Guide to deletion 47a262c7a1

A 3D scanner can be based on many different technologies, each with its own limitations, advantages and costs. Many limitations in the kind of objects that can be digitized are still present. For example, optical technology may encounter difficulties with dark, shiny, reflective or transparent objects while industrial

computed tomography scanning, structured-light 3D scanners, LiDAR and Time Of Flight 3D Scanners can be used to construct digital 3D models, without destructive testing. 47a262c7a1 < 23 December 47a262c7a1 25 December > 47a262c7a1
