Strategic management A. Strategic management provides overall direction to an enterprise and involves specifying the organization's objectives, developing policies and plans to achieve those objectives, and then allocating resources to implement the plans. Academics and practicing managers have developed numerous models and frameworks to assist in strategic decision-making in the context of complex environments and competitive dynamics. and In the field of management, strategic management involves the formulation and implementation of the major goals and initiatives taken by an organization's managers on behalf of stakeholders, based on consideration of resources and an assessment of the internal and external environments in which the organization operates. Strategic management is not static in nature; the models can. , Market-Driven Management: Supplementary web resource information, section 4: The Importance-Performance Matrix, 2007 edition Martilla, J. J-J 234ad360a5

Collaboration Teams that work collaboratively often access greater resources, recognition and rewards when facing competition for finite resources. Fifth and sixth graders in the community work with the teacher installing a classroom window; the installation becomes a class project in which Collaboration (from Latin com- "with" + laborare "to labor", "to work") is the process of two or more people, entities or organizations working together to complete a task or achieve a goal. The form of leadership can be social within a decentralized and egalitarian group. A definition that takes technology into account is "working together to create value while sharing virtual or physical space. " Collaboration is similar to cooperation. is made 234ad360a5
