Skyline (Honolulu) Phase 1 of the project opened June 30, 2023, and lies entirely outside of the Urban Honolulu census-designated place, linking East Kapolei (on the 'Ewa Plain) and Aloha Stadium. Its construction constitutes the largest public works project in Hawai'i's history. Phase 2, connecting to Pearl Harbor and Daniel K. construction starting in August 2025 near the Kūwili station. As of June 2025, geotechnical boring throughout the route; as well as property acquisition and archeological Skyline is a rapid transit system in the City and County of Honolulu on the island of O'ahu, in the state of Hawai'i. Inouye International Airport before reaching Middle Street, is scheduled to open October 16, 2025. The final phase, continuing the line across Urban Honolulu to Downtown, is due to open in 2031 d8618437db

In situ The term is used across many disciplines to denote methods, observations, or interventions carried out in their natural or intended environment. In scientific literature, its usage increased from the late 19th century onward, initially in medicine. The term typically refers to the examination or occurrence of a process within its original context, without relocation. pre-planning and incurs higher manufacturing and transportation costs. By contrast, ex situ methods involve the removal or displacement of materials, specimens, or processes for study, preservation, or modification in a controlled setting, often at the cost of contextual integrity. In geotechnical engineering, the term in situ describes soil in its natural, undisturbed state In situ is a Latin phrase meaning 'in place' or 'on site', derived from in ('in') and situ (ablative of situs, lit. The earliest known use of in situ in the English language dates back to the mid-17th century. 'place') d8618437db
