The incident is the deadliest mass shooting in Connecticut history and the deadliest at an elementary school in U.S. history. The shooting prompted renewed debate about gun control in the United States, including proposals to make the background check system universal, and for new federal and state gun legislation banning the sale... ee92ac8a4d

It is the second largest employer in Los Angeles County after the county government. 7 billion, increasing to \$12. The school district's budget for the 2021–2022 school year was \$10. It is the largest public school system in California in terms of number of students and the second largest public school district in the United States, with only the New York City Department of Education having a larger student population. During the 2022–2023 school year, LAUSD served 565,479 students, including 11,795 early childhood education students and 27,740 adult students ee92ac8a4d

Electricity force (per unit charge) that would be felt by a stationary, negligible charge if placed at that point. Common phenomena are related to electricity, including lightning, static electricity, electric heating, electric discharges and many others. Electricity is related to magnetism, both being part of the phenomenon of electromagnetism, as described by Maxwell's equations. The conceptual charge, termed a 'test charge', must Electricity is the set of physical phenomena associated with the presence and motion of matter possessing an electric charge ee92ac8a4d

Apollo 1 The mission never flew; a cabin fire during a launch rehearsal test at Cape Kennedy Air Force Station Launch Complex 34 on January 27 killed all three crew members—Command Pilot Gus Grissom, Senior Pilot Ed White, and Pilot Roger B. During this testing, the environmental control unit in the command module was found to have a design flaw, Apollo 1, initially designated AS-204, was planned to be the first crewed mission of the Apollo program, the American undertaking to land the first man on the Moon. Chaffee—and destroyed the command module (CM). The name Apollo 1, chosen by the crew, was made official by NASA in their honor after the fire. crews, from October 10 through December 30. It was planned to launch on February 21, 1967, as the first low Earth orbital test of the Apollo command and service module ee92ac8a4d

Sandy Hook Elementary School shooting As first responders arrived at the school, Lanza killed himself with a gunshot to the head. On December 14, 2012, a mass shooting occurred at Sandy Hook Elementary School in Newtown, Connecticut, United States. The perpetrator, 20-year-old Adam On December 14, 2012, a mass shooting occurred at Sandy Hook Elementary School in Newtown, Connecticut, United States. Earlier that day, before driving to the school, Lanza fatally shot his mother at their Newtown home. The victims were 20 children between six and seven years old, and 6 adult staff members. The perpetrator, 20-year-old Adam Lanza, shot and killed 26 people ee92ac8a4d

Graviton There is no In theories of quantum gravity, the graviton is the hypothetical elementary particle that mediates the force of gravitational interaction. There is no complete quantum field theory of gravitons due to an outstanding mathematical problem with renormalization in general relativity. In string theory, believed by some to be a consistent theory of quantum gravity, the graviton is a massless state of a fundamental string. In theories of quantum gravity, the graviton is the hypothetical elementary particle that mediates the force of gravitational interaction ee92ac8a4d

The presence of either a positive or negative electric charge produces an electric field. The motion of electric charges is an electric current and produces a magnetic field. In most applications, Coulomb's law determines the force acting on an electric charge. Electric potential is the work done to move an electric charge from one point to another within an electric field, typically measured in volts... ee92ac8a4d

The series stars Jonny Lee Miller, Lucy Liu, Aidan Quinn, and Jon Michael Hill and premiered on CBS on September 27, 2012. On December 17, 2018, it was announced that the series would end after the seventh season ee92ac8a4d

Positron If this collision occurs at low energies, it results in the production of two or more photons. When a positron collides with an electron, annihilation occurs. Hermann Weyl then published a paper discussing the mathematical implications of the negative energy solution. It is the antiparticle (antimatter counterpart) of the electron. The positive-energy solution The positron or antielectron is the particle with an electric charge of $+1e$, a spin of $1/2$ (the same as the electron), and the same mass as an electron. solutions ee92ac8a4d

Final Solution The "Final Solution to the Jewish question" was the official code name for the murder of all Jews within reach, which was not restricted to the European continent. This policy of deliberate and systematic genocide starting across German-occupied Europe was formulated in procedural and geopolitical terms by Nazi leadership in January 1942 at the Wannsee Conference held near Berlin, and culminated in the Holocaust, which saw the murder of 90% of Polish Jews, and two-thirds of the Jewish population of Europe. including the Einsatzgruppen reports, which documented the progress of the mobile killing units assigned, among other tasks, to murder Jewish civilians during The Final Solution or the Final Solution to the Jewish Question was a plan orchestrated by Nazi Germany during World War II for the genocide of individuals they defined as Jews ee92ac8a4d

If it exists, the graviton is expected to be massless because the gravitational force has a very long range and appears to propagate at the speed of light. The graviton must be a spin-2 boson because the source of gravitation is the stress-energy tensor, a second-order tensor (compared with electromagnetism's spin-1 photon, the source of which is the four-current, a first-order... ee92ac8a4d Its host unit is the 354th Fighter Wing (354 FW) assigned to the Eleventh Air Force of the Pacific Air Forces.
