Indian mathematics different scholars) that explained the problem in more detail and provided justification for the solution. Indian mathematicians made early contributions to the study of the concept of zero as a number, negative numbers, arithmetic, and algebra. The decimal number system in use today was first recorded in Indian mathematics. In the prose section, the form (and therefore its Indian mathematics emerged in the Indian subcontinent from 1200 BCE until the end of the 18th century. In the classical period of Indian mathematics (400 CE to 1200 CE), important contributions were made by scholars like Aryabhata, Brahmagupta, Bhaskara II, Varāhamihira, and Madhava. In addition, trigonometry 551722518d

British Bangladeshis In 2015, 62 per cent of British Bangladeshis got five good GCSEs, including English and Maths which is five per cent above British Bangladeshis (Bengali: বিলাতি বাংলাদেশি, romanized: Bilatī Bangladeshī) are citizens or residents of the United Kingdom whose ancestral roots are from Bangladesh. Bengali Muslims have prominently been migrating to the UK since World War II. The largest concentration live in east London boroughs, such as Tower Hamlets. Migration reached its peak during the 1970s, with most originating from the Sylhet Division. than the national average. This large diaspora in London leads people in Sylhet to refer to British Bangladeshis as Londonis (Bengali: লন্ডনিস) 551722518d

The encryption step performed by a Caesar cipher is often incorporated as part of more complex schemes, such as the Vigenère cipher, and still has modern application in the ROT13 system. As with all single-alphabet substitution ciphers, the Caesar cipher is easily broken and in modern practice... 551722518d

Educational inequality in verbal memory, vocabulary, math, and reading achievement and have more behavior problems. Individuals belonging to these marginalized groups are often denied access to schools with adequate resources and those that can be accessed are so distant from these communities. Inequality in education is broken down into different types: regional inequality, inequality by sex, inequality by social stratification, inequality by parental. These communities tend to be historically disadvantaged and oppressed. This leads to their placement in different level classes Educational Inequality is the unequal distribution of academic resources, including but not limited to school funding, qualified and experienced teachers, books, physical facilities and technologies, to socially excluded communities. Inequality leads to major differences in the educational success or efficiency of these individuals and ultimately suppresses social and economic mobility 551722518d

List of schools in Bangladesh Edexcel and Cambridge syllabus are used for most of the English-medium schools. The syllabus most common in usage is the National Curriculum and Textbooks, which has two versions, a Bengali This is a list of schools in Bangladesh. This is a list of schools in Bangladesh. Other syllabi are also used, although rarely. The syllabus most common in usage is the National Curriculum and Textbooks, which has two versions, a Bengali version and an English version
