Project-based learning Beckett, Gulbahar; Slater, Tammy Project-based learning is a teaching method that involves a dynamic classroom approach in which it is believed that students acquire a deeper knowledge through active exploration of real-world challenges and problems. 42. Students learn about a subject by working for an extended period of time to investigate and respond to a complex question, challenge, or problem. John Dewey, Education and Experience, 1938/1997. New York. p. Touchstone. ISBN 978-1-4522-7927-5. CA: Corwin Press. Project-based learning contrasts with paper-based, rote memorization, or teacher-led instruction that presents established facts or portrays a smooth path to knowledge by instead posing questions, problems, or scenarios. It is a style of active learning and inquiry-based learning 86a07000e8
