Cantonese It originated in the city of Guangzhou (formerly romanised as Canton) and its surrounding Pearl River Delta. Many Cantonese migrants sailed also overseas, bringing the Cantonese language with them to Southeast Asia, North and South America, and Western Europe. Cantonese is the traditional prestige variety of Yue Chinese, a Sinitic language belonging to the Sino-Tibetan language family. Although Cantonese specifically refers to the prestige variety, in linguistics it has often been used to refer to the entire Yue subgroup of Chinese, including related but partially mutually intelligible varieties like Taishanese.

language. Second language attrition can occur from. For first or native language attrition, this process is generally caused by both isolation from speakers of the first language ("L1") and the acquisition and use of a second language ("L2"), which interferes with the correct production and comprehension of the first. Such interference from a second language is likely experienced to some extent by all bilinguals, but is most evident among speakers for whom a language other than their first has started to play an important, if not dominant, role in everyday life; these speakers are more likely to experience language attrition.
