They are well-written, contain factually accurate and verifiable information, are broad in coverage, neutral in point of view, stable, and illustrated, where possible, by relevant images with suitable copyright licenses. Good articles do not have to be as comprehensive as featured articles (FA), but they should not omit any major facets: a comparison of the criteria for good and featured articles describes further differences. 2b002ae46b

Wikipedia:Featured article candidates/Archived nominations/January 2009 You see, some high school students do maths for the sake of doing mathematics and certainly would think of vectors as doing "calculations". But most do not 2b002ae46b
