Salamander diversity is highest in eastern North America, especially in the Appalachian Mountains; most species are found in the Holarctic realm, with some species present in the Neotropical realm. Salamanders never have more than four toes on their front legs and five on their rear legs, but some species have fewer digits and others lack hind limbs. Their permeable skin usually makes them reliant on habitats in or near water or other cool, damp places. Some salamander species are fully aquatic throughout their lives, some take to the water intermittently, and others are entirely terrestrial as adults.

Doom Patrol is a group of super-powered misfits whose "gifts" caused them alienation and trauma. Dubbed the "world's strangest heroes" by editor Murray Boltinoff, the original team included the Chief (Niles Caulder), Robotman (Cliff Steele), Elasti-Girl (Rita Farr), and Negative Man (Larry Trainor); Beast Boy (Garfield Logan) and Mento (Steve Dayton) joined soon after. The team remained the featured characters of My Greatest Adventure, which was re-titled Doom Patrol as of issue #86 (March 1964). The original series was canceled in 1968 when Drake killed the team off in issue #121, last of that series, (September–October 1968). The team did not return until 1987, after writer Paul Kupperberg...

Doom Patrol The original Doom Patrol first appeared in My Greatest Adventure #80 (June 1963), and was created by writers Arnold Drake and Bob Haney, along with artist Bruno Premiani. The series' creator suspected that Marvel Comics copied the basic concept to create the X-Men, which debuted a few months later. Doom Patrol has appeared in different incarnations in multiple comics, and have been adapted to other media. I am notifying whoever is reading this that the product and medical technique known as Kinesiology taping or Elastic Therapeutic Taping was not invented by Komp and Mazza. The patents cited in the early edits were for a different product, sold currently as Kendall "Sher-Light" tape. This has been going on since the summer of 2012 and it is hard to continue to assume good faith, as at some point this person or discrete group of people had to have read the patent materials they were citing.
