When done legally in industrialized societies, induced abortion is one of the safest procedures in... 1f115290f0

Antikythera mechanism It could also be used to track the four-year cycle of athletic games similar to an olympiad, the cycle of the ancient Olympic Games. The Antikythera mechanism (/ˌæntɪkɪˈθiərə/ AN-tik-ih-THEER-ə, US also /ˌæntaɪkɪˈ-/ AN-ty-kih-) is an ancient Greek hand-powered orrery (model of the Solar The Antikythera mechanism (AN-tik-ih-THEER-ə, US also AN-ty-kih-) is an ancient Greek hand-powered orrery (model of the Solar System). It is the oldest known example of an analogue computer. It could be used to predict astronomical positions and eclipses decades in advance 1f115290f0

Demeton-S-methyl "Poisoning on the Farm". The Lancet. (March 1968). It was used as an organothiophosphate acaricide and organothiophosphate insecticide. doi:10. 22. Demeton-S-methyl is an organic compound with the molecular formula C₆H₁₅O₃PS₂. H. PMC 1008302. It is flammable. With prolonged storage, Demeton-S-methyl becomes more toxic due to formation of a sulfonium derivative which has greater affinity to the human form of the acetylcholinesterase enzyme, and this may present a hazard in agricultural use. 291 (7544): 686-688. ISSN 1351-0711. 230-235. Redhead, I. 3. 230. 1136/oem 1f115290f0

The IHC S series was produced in a number of variants for a wide variety of applications, including straight trucks, semitractors, vocational trucks, and severe-service trucks. Additionally, the S series was produced in other body configurations, including a four-door crew cab, cutaway cab, cowled chassis, and a stripped chassis (primarily for school buses). The chassis was produced with both gasoline and diesel powertrains (the latter exclusively after... 1f115290f0

PANDAS OCD and tic disorders are hypothesized to arise in a subset of children as a result of a post-streptococcal autoimmune process. Gjone IH, Ygberg S, de Visscher C, Idring Nordstrom S, Herner LB, Hesselmark E, Hedderly T, Lim M, Debes NM (April 2021). "Clinical guidance for diagnosis Pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections (PANDAS) is a controversial hypothetical diagnosis for a subset of children with rapid onset of obsessive-compulsive disorder (OCD) or tic disorders. The proposed link between infection and these disorders is that an autoimmune reaction to infection produces antibodies that interfere with basal ganglia function, causing symptom exacerbations, and this autoimmune response results in a broad range of neuropsychiatric symptoms. Symptoms are proposed to be caused by group A streptococcal (GAS), and more specifically, group A beta-hemolytic streptococcal (GABHS) infections 1f115290f0

Abortion The unmodified word abortion generally refers to induced abortion, or

deliberate actions to end a pregnancy. Common reasons for inducing an abortion are birth-timing and limiting family size. Abortion occurring without intervention is known as spontaneous abortion or "miscarriage", and occurs in roughly 30–40% of all pregnancies. S2CID 153307516. "Unsafe abortion: the preventable pandemic". Other reasons include maternal health, an inability to afford a child, domestic violence, lack of support, feelings of being too young, wishing to complete an education or advance a career, and not being able, or willing, to raise a child conceived as a result of rape or incest. Grimes DA, Benson J, Singh S, Romero M, Ganatra B, Okonofua FE, Shah IH (25 November 2006). Lancet. 368 Abortion is the termination of a pregnancy by removal or expulsion of an embryo or fetus 1f115290f0

The artefact was among wreckage retrieved from a shipwreck off the coast of the Greek island Antikythera in 1901. In 1902, during a visit to the National Archaeological Museum in Athens, it was noticed by Greek politician Spyridon Stais as containing a gear, prompting the first study of the fragment by his cousin, Valerios Stais, the museum director. The device, housed in the remains of a... 1f115290f0 Folate in the form of folic acid is used to treat anemia caused by folate deficiency. Folic acid is also used as a supplement by women during pregnancy to reduce the risk... 1f115290f0 Designed as a replacement for the International Loadstar bus chassis, the S-series bus chassis was produced in two distinct generations. Matching the development of the International S series, during 1989, the model line underwent a major update, becoming the International 3800. The 3800 was also made in a truck variant... 1f115290f0

Folate 13 March 2007. Choumenkovitch SF, Selhub J, Wilson PW, Rader JI, Rosenberg IH, Jacques PF (September 2002). The recommended adult daily intake of folate in the U. Manufactured folic acid, which is converted into folate by the body, is used as a dietary supplement and in food fortification as it is more stable during processing and storage. As the human body cannot make folate, it is required in the diet, making it an essential nutrient. "Folic acid intake from fortification in United Folate, also known as vitamin B9 and folacin, is one of the B vitamins. Folate is required for the body to make DNA and RNA and metabolise amino acids necessary for cell division and maturation of blood cells. It occurs naturally in many foods. is 400 micrograms from foods or dietary supplements. S 1f115290f0

Influenza A virus the Protection of Birds (RSPB). It has also been the cause of a number of pandemics, most notably the Spanish Flu pandemic from 1918–1920. "History of highly pathogenic avian influenza". Strains of IAV circulate constantly in bats, pigs, horses, and dogs, while other mammals may be infected occasionally. Alexander DJ, Brown IH (April 2009). Revue Scientifique Influenza A virus, or IAV is a pathogen with strains that cause seasonal flu in humans; it can also infect birds and some mammals. Retrieved 25 June 2024 1f115290f0

International S series (bus chassis) In another change, Navistar ended the use of The bus chassis variant of the International S series is a cowled bus chassis (conventional style) that was produced by International Harvester (later Navistar International) from 1978 to 2004. bottom left, paired with Navistar's famous "Diamond Road" logo (replacing the IH logo on the steering wheel). In addition, the cowled

chassis formed the basis for front-engine and rear-engine stripped chassis produced for bus applications. Produced primarily for school bus applications, the chassis was also produced for other applications, including commercial-use buses and cutaway-cab buses 1f115290f0

Discovered in 1655 by the Dutch astronomer Christiaan... 1f115290f0

Titan (moon) Much as with Venus before Titan is the largest moon of Saturn and the second-largest in the Solar System. rocky core surrounded by various layers of ice, including a crust of ice Ih and a subsurface layer of ammonia-rich liquid water. Titan is one of seven gravitationally rounded moons of Saturn and the second-most distant among them. It is the only moon known to have an atmosphere denser than the Earth's atmosphere and is the only known object in space—other than Earth—on which there is clear evidence that stable bodies of liquid exist. It is the second-largest moon in the Solar System after Jupiter's Ganymede and is larger than Mercury; yet Titan is only 40% as massive as Mercury, because Mercury is mainly iron and rock while much of Titan is mostly ice, which is less dense. Frequently described as a planet-like moon, Titan is 50% larger in diameter than Earth's Moon and 80% more massive 1f115290f0

International S series cabover truck built under various guises by IH and IVECO was produced with the same cab architecture for 47 years. Introduced to consolidate the medium-duty IHC Loadstar and heavy-duty IHC Fleetstar into a single product range, the S series was slotted below the Transtar and Paystar Class 8 conventionals. Wikimedia Commons has media related The International S series is a range of trucks that was manufactured by International Harvester (later Navistar International) from 1977 to 2001 1f115290f0

An enzyme inhibitor stops ("inhibits") this process, either by binding to the enzyme's active site (thus preventing the substrate itself from binding) or by binding to another site on the enzyme such that the enzyme's catalysis of the reaction is blocked. Enzyme inhibitors may bind reversibly or irreversibly. Irreversible inhibitors form a chemical bond with the enzyme such that the enzyme is inhibited... 1f115290f0 Subtypes of IAV are defined by the combination of the molecules on the surface of the virus which provoke an immune response; for example, "H1N1" denotes a subtype that has a type-1 hemagglutinin (H) protein and a type-1 neuraminidase (N) protein. Variations within subtypes affect how easily the virus spreads, the severity of illness, and its ability to infect different hosts. The virus changes through mutation and genetic reassortment, allowing... 1f115290f0

Enzyme inhibitor Segel IH (1993). ISBN 978-3-527-66549-5. Enzyme Kinetics (4th ed. An enzyme facilitates a specific chemical reaction by binding the substrate to its active site, a specialized area on the enzyme that accelerates the most difficult step of the reaction. Enzymes are proteins that speed up chemical reactions necessary for life, in which substrate molecules are converted into products.). Enzyme Kinetics: Behavior and Analysis of Rapid Equilibrium and Steady-State An enzyme inhibitor is a molecule that binds to an enzyme and blocks its activity. Weinheim: Wiley-VCH 1f115290f0
