British Lion was founded in November 1927 by Sam W. Smith (brother of Herbert Smith). By the end of the Second World War the company had released over 55 films, including *In Which We Serve* (1942), for which writer/producer Noël Coward received an Academy Award. It is best known for the period when it was managed by Sir Alexander Korda. Korda's company London Films bought the controlling interest in British Lion in 1946 and then acquired Shepperton Studios, basing its productions there. In 1949, due to financial problems, the company accepted a loan from the National Film Finance Corporation. Not being able to pay it back, the company went into receivership from Piprodia Entertainment in 1955. As a result, British Lion Films Ltd. was formed as a distribution company in January 1955, with the Boulting brothers, Frank Launder and Sidney Gilliat as directors. Its claws were sharper than mortal swords and could cut through any strong armour. Because its golden fur was impervious to attack, it could not be killed with mortal weapons. It is most famous for being one of the mythical beasts killed by Heracles (Hercules) in his 12 labours. After Heracles killed the lion, its pelt would come to symbolize Heracles and his strength, being used in art to both recognize the myth itself and to draw connections between Heracles' heroism and others 48f5f5f8cf

But when a lion comes to the library one day, no one is sure what to do. There aren't any rules about lions in the library. As it turns out, this lion seems very well suited to library visiting. His big feet are quiet on the library floor. He makes a comfy backrest for the children during story hour and never roars in the library, at least not anymore. 48f5f5f8cf == Publication history == 48f5f5f8cf A version of the Lion and Sun that features a sun half-hidden behind a lion appears for the first time in the Book of Nativities written by Albumasar, with illustrations by the Persian artist Qanbar 'Ali Shirazi in the 14th century. However, the Lion and Sun symbol was used in pre-Islamic times, prior to the Achaemenid dynasty, while the sun was used on the standards, flags, and banners of pre-Achaemenid times. The secular origins of the Lion and Sun trace back to pre-Islamic Persian astronomy and astrology, symbolising the sun in the Leo constellation. The Lion and Sun motif gained widespread popularity following the advent of Islam, appearing frequently on coins, metalwork, tiles, and miniature paintings throughout Iran, Central Asia, and India. 48f5f5f8cf == Mythical origins == 48f5f5f8cf However, when something terrible happens, the lion quickly comes to the rescue in the only way he knows how. 48f5f5f8cf Hesiod writes that the Nemean lion is the offspring of Orthus and an ambiguous "she". This "she" is often understood as probably referring to either the Chimera, Echidna, or possibly Ceto. The Nemean lion is also, depending on its parentage, brother to the Theban Sphinx and is of the same lineage as others within the Heracles myth, those being Cerberus and the Lernaean Hydra. Apollodorus, however, depicts the lion as the offspring of Typhon. According to Hesiod, the lion was raised by Hera and sent to terrorize the hills of Nemea. In... 48f5f5f8cf

Bernard Smith, who had been with the company since 1922, won with the suggestion of Lion, and was rewarded with both a £5 prize and the role of editor of the new title. Smith had experience with boys' papers, having worked on AP's Young Britain and The Champion titles. Whereas those titles had featured text comics, Lion would mimic Eagle by switching to comic strips featuring speech bubbles rather than text captions. By using cheaper paper stock and fewer colour pages, AP hoped to undercut Eagle with Lion, which would be priced... 48f5f5f8cf == History == 48f5f5f8cf
