Originally set to be released in 2004, B'Day was planned as a follow-up to Beyoncé's solo debut *Dangerously in Love* (2003). However, it was delayed to accommodate the recording of Destiny's Child's final studio album *Destiny Fulfilled* (2004) and Beyoncé's starring role in the film *Dreamgirls* (2006). While on vacation after filming *Dreamgirls*, Beyoncé began contacting various producers and rented Sony Music Studios, completing the album within two weeks during April 2006. Most of the lyrical content of the album was inspired by Beyoncé's role in the film, with its musical style ranging from 1970s–1980s funk influences...

Creative industries Sport (DCMS) definition which describes the creative industries as: “those industries which have their origin in individual creativity, skill and talent The creative industries refers to a range of economic activities which are concerned with the generation or exploitation of knowledge and information. They may variously also be referred to as the cultural industries (especially in Europe) or the creative economy, and most recently they have been denominated as the Orange Economy in Latin America and the Caribbean

John Howkins' creative economy comprises advertising, architecture, art, crafts, design, fashion, film, music, performing arts, publishing, R&D, software, toys and games, TV and radio, and video games. Some scholars consider that the education industry, including public and private services, are forming a part of the creative industries. There remain, therefore, different definitions of the sector. Last few years delegation from...
