According to the United States Census Bureau's figures from 2022, German Americans make up roughly 41 million people in the US, which is approximately 12% of the population. This represents a decrease from the 2012 census where 50.7 million Americans identified as German. The census is conducted in a way that allows this total number to be broken down in two categories. In the 2020 census, roughly two thirds of those who identify as German also identified as having another ancestry, while one third identified as German alone. German Americans account for about one third of the total population of people of German ancestry in the world. b1b602dca5
