

Peregrine Apa Test Answers

Endangered Species Act of 1973 The Supreme Court of the United States described it as "the most comprehensive legislation for the preservation of endangered species enacted by any nation". Designed to protect critically imperiled species from extinction as a "consequence of economic growth and development untempered by adequate concern and conservation", the ESA was signed into law by President Richard Nixon on December 28, 1973. S. imperiled flesh-eating birds (notably, the bald eagle, brown pelican, and peregrine falcon) should be attributed to the 1972 ban of the pesticide DDT by the The Endangered Species Act of 1973 (ESA; 16 U. § 1531 et seq. It therefore "protect[s] species and the ecosystems upon which they depend" through different mechanisms. The purposes of the ESA are two-fold: to prevent extinction and to recover species to the point where the law's protections are not needed.) is the primary law in the United States for protecting and conserving imperiled species.
