== Early life and military career == The King's desire to marry a woman who had two living ex-husbands threatened to cause a constitutional crisis in the United Kingdom and the Dominions, ultimately leading to his abdication in December 1936. After abdicating, Edward was made Duke of Windsor by his brother and successor, George VI. Wallis married Edward six months later, after which she was formally... The marriage was opposed by the governments of the United Kingdom and the Dominions of the British Commonwealth. Religious, legal, political, and moral objections were raised. As the British monarch, Edward was Supreme Governor of the Church of England, which at this time did not allow divorced people to remarry in church if their ex-spouses were still alive. For this reason, it was widely believed that Edward could not marry Wallis and remain on the throne. As a double-divorcée, Wallis was perceived to be politically, morally and socially unsuitable as a prospective queen consort. It was widely assumed by the Establishment that she was driven by love of money or position rather than love for the King. Despite the opposition, Edward declared that he loved Wallis and intended to marry her as soon as her second divorce was finalised. The widespread unwillingness to accept Wallis as the King's consort and Edward's refusal to give her up led to his... Teck, an Austrian-born nobleman, and Princess Mary Adelaide of Cambridge, a granddaughter of King George III. She was informally known as "May", after the month of her birth. At the age of 24, she was betrothed to her second cousin once removed Prince Albert Victor, Duke of Clarence and Avondale, who was second in line to the throne. Six weeks after the announcement of the engagement, he died unexpectedly during a pandemic. The following year, she became engaged to Albert Victor's only surviving brother, George, who subsequently became king. Before her husband's accession, she was successively Duchess of York, Duchess of Cornwall, and Princess of Wales. 62dbefcb9 Robert Harris's alternative history novel *Fatherland* (1992) depicts Edward VIII as the restored king of the United Kingdom alongside Wallis Simpson as part of a pro-Nazi puppet government in Britain. Like the rest of western Europe, Great Britain, although unoccupied, is forced to sign up to an E.U. (except Switzerland) which shows their loyalty to the Greater German Reich. However, the British Empire still... 62dbefcb9 Sebba's books have been translated into several languages including French, Spanish, Portuguese, Japanese, Russian, Polish, Czech, Chinese, Italian and Dutch. 62dbefcb9 Edward was born during the reign of his great-grandmother Queen Victoria as the eldest child of the Duke and Duchess of York, later King George V and Queen Mary. He was created Prince of Wales on his 16th birthday, seven weeks after his father succeeded as king. As a young man, Edward served in the British Army during the First World War and undertook several overseas tours on behalf of his father. The Prince of Wales gained popularity due to his charm and charisma, and his fashion sense became a hallmark of the era. After the war, his conduct began to give cause for concern; he engaged in a series of sexual affairs that worried both his father and the British prime minister, Stanley Baldwin. 62dbefcb9 Anne Sebba (née Rubinstein) was born in London on 31 December 1951. At the time of her husband's death in 1972, Wallis was suffering from mental confusion due to arteriosclerosis. She became increasingly frail and eventually suffered from dementia, living the final years of her life as a recluse, supported by both her husband's estate and an allowance from Queen Elizabeth II. 1937 tour of Germany by the Duke and Duchess of Windsor Prince Edward, Duke of Windsor, and Wallis, Duchess of Windsor, visited Nazi Germany in October 1937. The Duke's supporters saw him as a potential peacemaker between Britain and Germany, but the British government refused to sanction such a role, opposed the tour and suspected that the Nazis would use the Duke's presence for propaganda. Prince Edward was keen for his wife, who had been rejected by the British establishment, to experience a state visit as his consort. Edward had abdicated the British throne in December 1936, and his brother George VI had become king. He appeared to have been sympathetic to Germany in this period and, that September, announced his intention to travel privately to Germany to tour factories.
