EPSDT amended and state efforts have evolved to match changes in standards of pediatric care, structures in the health care system, and our understanding of the Early and Periodic Screening, Diagnostic and Treatment (EPSDT) is the child health component of Medicaid. For the 25 million children enrolled in Medicaid and entitled to EPSDT in 2012, the program is a vital source of coverage and a means to improve the health and well-being of beneficiaries. Federal statutes and regulations state that children under age 21 who are enrolled in Medicaid are entitled to EPSDT benefits and that States must cover a broad array of preventive and treatment services. Unlike private insurance, EPSDT is designed to address problems early, ameliorate conditions, and intervene as early as possible 4ac4e17588

It is located in Salk Hall on Pitt's campus. Each year, between 70 and 80 students graduate from Pitt's D.M.D. program.
