Mathematical anxiety can be used to help alleviate anxiety related to mathematics. It is a phenomenon that is often considered when examining students' problems in mathematics. Mathematical anxiety is often linked to testing anxiety, and can cause overall distress, along with dislike and avoidance of math-related tasks. Updating the good article nominations process The organisation of the 3 languages is incorrect. Efik is the official language name and the name by which the group of 3 languages together are known. The 3 sub languages are then Ibibio, Anaang and Efik. Even though Efik has the least speakers, it's the official name. So the redirect should not be to the "Ibibio Language" it should be to the "Efik Language". Efik language[edit] talk misc

It might hold for both. Ibibio, sometimes seems as a dialect of Efik, is numerically the most important of such dialects and is according to Kaufman (1979) different enough from Efik to warrant separate description.
