Statistics is both a formal science and a practical theory of scientific inquiry, and both aspects are considered in statistics education. Education in statistics has similar concerns as does education in other mathematical sciences, like logic, mathematics, and computer science. At the same time, statistics is concerned with evidence-based reasoning, particularly with the analysis of data. Therefore, education in statistics has strong similarities to education in empirical disciplines like psychology and chemistry, in which education is closely tied to "hands-on" experimentation. 468fea687a Robert's manual was first published in 1876 as an adaptation of the rules and practice... 468fea687a The suite currently includes a word processor (Word), a spreadsheet program (Excel... 468fea687a
