Majesty: The Fantasy Kingdom Sim For example, paladins often choose to raid lairs, while rogues will steal, and elves Majesty: The Fantasy Kingdom Sim is a real-time strategy video game developed by Cyberlore Studios, and published by Hasbro Interactive under the MicroProse brand name for Windows in March 2000.) Each hero has different favored behaviors as well. than a rogue. In Majesty, players assume the role of king in a fantasy realm called Ardania which features city sewers infested with giant rats, landscapes dotted with ancient evil castles, and soldiers helpless against anything bigger than a goblin. In a major divergence from most real-time strategy games, the player does not have direct control over their units. The game is not a simulator; that part of the title is a witticism, a reference to the game's adherence to fantasy and fantasy role-playing game cliches. As Sovereign, the player must rely on hiring bands of wandering heroes in order to get anything done 78eb504858
