There are two types of events...

Brazilian space program data-exchange agreements with the CTA that covered such matters as weather forecasting. It is based at the National Institute for Space Research (INPE), under the Ministry of Science and Technology (MCT). In 1994, the space program was transferred to civilian control under the Brazilian Space Agency. It has significant capabilities in launch vehicles, launch sites, and satellite manufacturing. Upon its founding the program was under complete military control, which hindered its development, as other countries (such as the United States) blocked technological development due to concerns over missile proliferation. Brazil no longer relies as heavily on the United States for space technology The Brazilian space program is the rocketry and space exploration programs conducted by Brazil from 1961, under GOCNAE (Group for the Organization of the National Commission on Space Activities) until the creation of the Brazilian Space Agency in 1994
