This is accomplished by adding data about the data (metadata), linking each data element to a controlled, shared vocabulary. The meaning of the data is transmitted with the data itself, in one self-describing "information package" that is independent of any information system. It is this shared vocabulary, and its associated links to an ontology, which provides... 4f82966f70 ICS was initially developed to address problems of inter-agency responses to wildfires in California but is now a component of the National Incident Management System (NIMS) in the US, where it has evolved into use in all-hazards situations, ranging from active shootings to hazmat scenes. In addition, ICS has acted as a pattern for similar approaches internationally. 4f82966f70

Communication and leadership during change to communication, believing that the best solution benefits both parties. The goal of leader development is "the expansion of the person's capacity to be effective in leadership roles and processes". The two central elements to this are leadership can be learned, people do learn, grow, and change, and that leader development helps to make a person effective in a variety of formal and informal leadership roles.
